TIPS TO TAKING THE BEST PHILLIES GAME FACE FAN CUTOUT PHOTO

- Dress to impress and wear your favorite Phillies gear!
- Have a friend take the photo for you. For best results, please use the rear facing camera. And sorry, but no selfies!
- Find good lighting and face it. Make sure it's not behind you.
- Face the camera front on and capture the photo from at least your waist up.
- Ask your friend to stand 4 ft away and hold the phone vertically when taking the photo.
- Keep hand gestures within your body width at all times. No raising above your head!
- Don't put more than one person in the shot. Otherwise, it will not get used.
- SMILE and say

“GO PHILLIES!”
