

MEMORY MATCH CARD GAME

To create your very own memory match card game, print out at least 2 copies of each page and cut out each card along the dotted lines. Shuffle the cards and flip them all face down so that the images can't be seen. Player 1 flips over 2 cards. If they match, player 1 gets to keep them. If they do not match, it is player 2's turn. Continue taking turns until all of the cards are claimed. The player with the most matches wins.
