Dear St. Petersburg City Council Members,

As a partner of the Tampa Bay Rays, the Crisis Center of Tampa Bay is grateful for their generous and consistent support. The Rays have not only helped us raise awareness and funds for our mission, but also backed other community organizations in the Tampa Bay area. The Rays are such a valuable asset to our community, as they care about improving the quality of life for everyone in Tampa Bay.

The Crisis Center of Tampa Bay endorses the Historic Gas Plant Development project that the Tampa Bay Rays and Hines have put forward. This project is more than just a ballpark, it is a vision for a more inclusive and prosperous future for St. Pete and the whole Tampa Bay region. We look forward to seeing this project become a reality in the next few years.

Sincerely,

Clara A. Reynolds, LCSW, MBA
