- How does the game work?
 - Each person has 5 shots to hit at the 5 different targets on the field. The further back the target is, the more points it is worth, your last shot is double the points. Then the next player in your bay will hit their 5 shots, after each person completes their 5 shots, the player with the highest points will win that round. Then try to win as many rounds in the tee time as you can.
